

CH AARUSH UDBHAV

DATA ANALYST | MACHINE LEARNING & GENAI

Hyderabad, India | aarushch666@gmail.com | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

SUMMARY

Computer Science (AI & ML) undergraduate building predictive models, LLM/RAG semantic-search systems, and production data pipelines in Python. Skilled across the stack — SQL, dbt, BigQuery (GCP), Tableau/Power BI — with a foundation in applied statistics and model evaluation, and a focus on turning data into decisions stakeholders can act on.

DATA & ANALYTICS

Predictive Modeling, Forecasting & Survival Analysis
GenAI, LLMs, RAG & Retrieval Systems
Machine Learning, Data Mining & Feature Engineering
Applied Statistics, Model Evaluation,
Data Modeling (OLAP/ETL)

TOOLS & TECHNOLOGIES

Python, SQL, Pandas, scikit-learn, PyTorch
BigQuery (GCP), dbt, DuckDB, Data Warehousing
Tableau, Power BI, Excel
FastAPI, Docker, Git/CI-CD, SHAP/Grad-CAM (XAI)

PROFESSIONAL EXPERIENCE

- AI Intern — Launched Global

Mar 2025 – Jul 2025

 - Developed and evaluated machine learning models on real-world datasets, owning preprocessing, feature engineering, and evaluation.
 - Benchmarked model iterations against held-out data to improve prediction accuracy and reliability.
- Software Development Intern (AIML) — BharatVersity, Codemania

Jun 2025 – Jul 2025

 - Built AI-driven systems integrating machine learning models with backend workflows and REST APIs.
 - Analyzed model performance and tuned pipelines to raise accuracy in production.

PROJECTS

- Argo - Contributor Churn Intelligence

Jul 2026 - Present

Python, XGBoost, dbt, BigQuery, FastAPI, Next.js

 - Forecast contributor churn on 547K GitHub Archive events with an XGBoost Cox survival model (0.70 C-index).
 - Built the BigQuery → DuckDB → dbt → FastAPI pipeline with SHAP explainability and a live dashboard.
- ClinicalVision AI

Mar 2026 – Present

Next.js, Hugging Face, Docker

 - Built a multi-modal deep learning model combining clinical and image data with ResNet-50; applied SHAP and Grad-CAM for explainability.
- Nexus Neural Search - RAG Retrieval System

Dec 2025 – Present

NLP, LLM Embeddings, Vector Search

 - RAG semantic-search system using LLM embeddings for fast, accurate answers over unstructured text.

EDUCATION

- B.Tech, Computer Science (AI & ML) - GITAM Hyderabad

Jun 2023 – Present

CGPA: 7.99 / 10
- Shantiniketan International School (Cambridge International Education)

Jun 2020 - May 2022

Higher Secondary Education

ADDITIONAL INFORMATION

- Languages:** English, Hindi, Telugu
- Certifications:** Google Data Analytics (Coursera); Google Advanced Data Analytics (in progress, 2/6 Courses); Microsoft PL-300 Power BI Data Analyst (expected August 2026).
- Awards/Activities:** Smart India Hackathon 2023 & 2024 (National Level); AI Day Hackathon 2026; Deloitte Technology & Data Analytics Simulations (Forage).
